

BMC HELIX CONTINUOUS OPTIMIZATION

Learning Path

BMC Helix Continuous Optimization Migration: Essential Subscription

Recommended for: Administrators, Consultants

Product versions: 23.4

BMC Helix Continuous Optimization is a SaaS-based capacity management solution that gives you insights to optimize your current IT resources and plan for future demands. It collects and analyzes the capacity data and core metrics for CPU, memory, and storage.

This subscription provides a deep dive into migrating from TrueSight Capacity Optimization to BMC Helix Continuous Optimization. The web-based training courses included in this subscription provide comprehensive details for the migration, including migration overview, planning, and post-migration tasks.

BMC Helix Continuous Optimization: Fundamentals Migrating Overview (WBT)
Duration: **30 Minutes**

BMC Helix Continuous Optimization: Planning the Migration and Activating(WBT)
